

The Money Codes

The codes that make you money during SEP season. Recognize what they say, know the code, close the enrollment.

#1 OFF-SEASON OPPORTUNITY

C-SNP Enrollment (Code: CSN)

During SEP season (Apr 1 – Oct 14), C-SNP is the primary way agents generate enrollment revenue. If the beneficiary has a qualifying chronic condition, this door is always open.

17M

Medicare beneficiaries with a qualifying chronic condition

“Do you have any ongoing health conditions like diabetes, heart failure, or COPD?”

- Year-round availability — no window expires
- C-SNPs offer lower copays and condition-specific care management
- Must enroll INTO a C-SNP — cannot use for standard MA or MAPD
- Provider must attest diagnosis within 2 months of enrollment

Qualifying conditions: Diabetes, chronic heart failure, COPD/emphysema, ESRD/dialysis, cancer, cardiovascular disorders, dementia/Alzheimer's, autoimmune disorders, HIV/AIDS, chronic mental health, neurological disorders, end-stage liver disease, hematologic disorders, chronic alcohol/drug dependence, stroke/CVA

“They Just Told You Something”

WHAT THEY SAID	CODE	WINDOW	WHAT TO DO
"I have diabetes / COPD / heart failure..."	CSN	Year-round, 1x/yr per condition	Confirm diagnosis, verify C-SNP in county
"I just retired / lost my job / COBRA ended"	LEC	Month of loss + 2 months	Get exact coverage end date. CMS-L564, CMS-40B
"I just moved"	MOV	Month before + month of + 2 after	Verify address change with Social Security
"I'm on Medicaid"	INT	Any month, repeatable	Verify full Medicaid → D-SNP. Check MCO match
"I get Extra Help / low income"	DEP	Any month, repeatable	Verify Medicaid or LIS level → PDP change
"I'm turning 65 / just got Medicare"	IEP	7 months around 65th birthday	Check Part A and Part B effective dates
"My plan is terrible"	5ST	Dec 8 – Nov 30, 1x/yr	Check if 5-star plan exists in area
"I'm in a nursing home / rehab"	OEP-I	Unlimited in facility	Confirm facility type (not assisted living)

"My plan got cancelled"	EOC	Dec 8 – end of Feb	Verify plan non-renewal notice
"Lost VA / TRICARE / ACA coverage"	LCC	2 mo from loss or notification	Must be involuntary (not missed premiums)
"My Medicaid just changed"	MCD	3 months from change	Gained, lost, or changed level
"My husband/wife died and I lost coverage"	LEC	Month of loss + 2 months	Get date coverage ended. CMS-L564, CMS-40B

“When Exactly Did That Happen?”

The single most important question on every SEP call.

ALWAYS OPEN

CSN — Year-round (condition + C-SNP available)
 INT — Any month, repeatable (full Medicaid → D-SNP)
 DEP — Any month, repeatable (any Medicaid/LIS → PDP)
 OEP-I — Unlimited while in qualifying facility
 CDC — Anytime (has other drug coverage → MA-only)

TICKING CLOCK

IEP — 7 months around 65th birthday
 LEC — Month of loss + 2 months
 MOV — Month before + month of + 2 after
 MCD / NLS — 3 months from status change
 LCC — 2 months from loss or notification

CALENDAR-BOUND

5ST — Dec 8 through Nov 30 (1x/yr)
 EOC — Dec 8 through end of Feb
 AEP — Oct 15 through Dec 7 (no SEP needed)
 OEP — Jan 1 through Mar 31 (MA members, 1 change)

The Confusion Killers

IEP vs ICEP

Same A/B date → IEP. Different dates → ICEP.

INT vs DEP

Full Medicaid → INT → D-SNP. Any Medicaid/LIS → DEP → PDP.

MOV vs LEC

Moved → MOV. Lost coverage → LEC. Could be both.

LCC vs LEC

Employer/COBRA → LEC. Everything else → LCC.

12G vs 12J

Had Medigap before MA → 12G. First MA at 65 → 12J (PDP mandatory).

OEP-I vs LTC

MA/MAPD → OEP-I. PDP only → LTC. Same facilities, different plan types.

Three Lines You Never Cross

1

DST is not a standalone SEP.

Only extends a missed window. Never advertise. Benchmark: ~15%.

2

Never enroll Medicaid in a give-back plan.

Part B premium already covered by state. Zero value, compliance risk.

3

Always verify the election period.

What event? When? Does the beneficiary understand? Conversation, not checkbox.
